Response to Arguments

Art Unit: 1774

7. Applicant's arguments filed September 22, 2006 have been fully considered but they are not persuasive.

Applicants argue that the term "mesoporous molecular sieve" is an art recognized term and that the examiner has failed to show that any of the cited references teach a fiber comprising a mesoporous molecular sieve, further citing the Cormal reference to show that the term "mesoporous molecular sieve" is a specific term of art that possesses a very specific meaning.

In this regard, there is no clear factual evidence on this record by way of back-to-back comparison that the metal oxides of the prior art are not "mesoporous molecular sieves".

No claims are allowed.

Conclusion

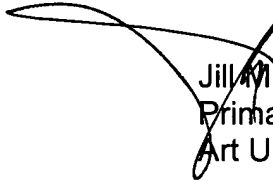

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
